\*Note: The 1981-up uses the same plug on check valve, tappet screen and relief valve.

**"Super-Pump" Spring Kit** for 1966-91 BT is the answer to low oil pump pressure. "Super Pump" kit includes 3 color coated springs. Each spring applies more pressure on the relief valve plunger. The average output pressure would be as follows, Blue 20 psi, Yellow 24 psi, Red 28 psi. At idle the pressure drops no lower than 10 psi. Kit works well on S&S and stock pumps.

**VT No. 13-9222**
