

Barnett Scorpion Clutch Kit features over twice as much friction surface area compared to stock clutch. All Scorpion Clutches provide a positive engagement and release. Scorpion clutches incorporate 6 heavy duty coil springs. In addition, an extra spring set

with a different spring rate is included which allows the clutch to be tuned for street or race application depending on usage. Tunability is easy without removal of the primary cover. Barnett Friction Plates are compatible with any primary oil. Each kit is designed to be used with stock type clutch basket.

Pro-Clutch by Rivera Engineering

Pro-Clutch by Rivera Engineering converts old style clutch packs to smooth modern diaphragm spring function. Available for early chain or belt drive with wet or dry clutch. Kit includes clutch hub with bearing, clutch discs (friction and steel), diaphragm spring, spring retainer, pressure plate & 4 shoulder bolts. 84-up kits utilize existing clutch basket, supplies a clutch hub to allow use of clutch plates that increase surface area by 100% to reduce slipping.

York Hi Performance Clutch Kits have been especially designed for better clutch operation and to deliver more torque & horsepower capacity, all parts are made from the highest quality materials to ensure a trouble free operation. The Kevlar clutch plates are made for heavy duty operation and deliver a smooth power transfer to the rear wheel. The adjustable coil springs allow you to tailor your clutch lever pressure & clutch operation as needed. These kits also boast very low maintenance, "Set it & Forget it." They are great upgrade kits.
