Valves by Rowe or Precision Machining (Kibblewhite). Intake valves are made of 8645 heat treated valve steel & the exhaust valves are made of 21-2N heat treated non-magnetic stainless steel. These valves are available with the following stems & heads:

- (1) Roller Burnished Stem:** Roller burnishing smooths the finest grind finish (16 microinch) to a 4 microinch.
- (2) Hard Chromed Stem:** Very slick and hard. The standard in wear resistance.
- (3) Melonite, Special Black Stem:** This is a heat treating process developed and patented in Germany. Gives the valve a Black Smokey look. Very hard and slippery. Currently being used on O.E.M. valves available in Rowe or Black Diamond brands.
- (4) Racing by Kibble White Precision Machining** feature a sharper profile angle to maximize flow, 11-6015 has 2.00 head, 11-6016 has 1.812 head, 11-6017 has 1.780 head, 11-6018 has 1.90 head and 11-6019 has 1.63 head.
- (5) Razor Back by Kibble White** are one piece forged EV-8 stainless steel, fully CNC machined with hard chrome stems.
- (6) Black Diamond:** One piece stainless steel valve with a stellite tip and black nitron impregnated stem to improve wear properties and reduce friction.

## Valves

Manley's "Street Master" Intake & Exhaust Valves feature stainless steel construction, chrome plated stems, hard tips, smooth turned underhead angle & radius, forged combustion dish & machined combustion face rim. Fits All Evo Big Twin and 1999-04 TC-88 (standard overall length).

VT No.	Type	Head Dia.	Stem Dia.	OEM
