20-0024	1994-99 FXST, FXD

Rivera Brute Force Belt Drive Kit includes 3 1/2” wide 14mm belt, outboard bearing support, carbon fiber upper guard and Pro-clutch. For all 1990-up ST or aftermarket Rigid mount motorcycles with late model 5-Speed transmissions. The belt drive comes with top and bottom carbon-fiber belt guards which prevent foreign objects from coming in contact with the belt or pulleys. The belt drive requires the use of carbon fiber guards for safe operation. All 5063-T-6 Billet aluminum construction for strength and smoothness. The integrated outboard bearing support provides unprecedented structural strength and rigidity.

VT No. 20-0118

Chrome Billet Aluminum Flamed Belt Guard. The enhanced three dimensional characteristics of the guard allow you to customize the guard by applying paint or other effects to the recessed areas to match your existing custom paint job. Fits Primo Brute IV and Brute V belt drives and includes Super Duty “H” mounting bracket.
