## "Full" Lowering Kits

**"Full" Lowering Kits** include components to lower the front and rear of ST models. Each kit includes shorter damper rods, 1" shorter kickstand and adjustable rear shock lowering set. The front of the FXST is lowered 2.5" and 2" on FLST models. Rear is adjustable up to 1.5" on 2000-06 models and up to 2" lower on 1989-99 models, using stock shocks.

VT No.	Year
<b>54-0570</b>	1989-99
<b>54-0571</b>	2000-06

**Note:** When installing these kits, you must check ground clearance and tire to fender clearance.

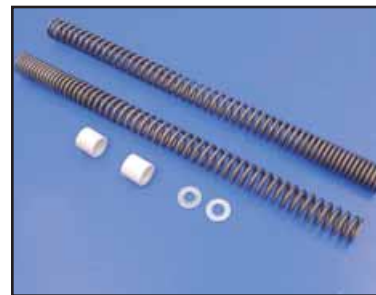

## Fork Spring Kit

**20th Century Fork Spring Lowering Kits** have progressively wound springs that resist bottoming out. Installation requires minor disassembly to lower the front forks 1 1/4" or 2" depending on the spacer used. Kit includes springs, spacers and hardware. Easily converts back to stock by reinstalling stock fork springs.
