York Hi Performance Clutch Kits have been especially designed for better clutch operation and to deliver more torque and horsepower capacity. All parts are made from the highest quality materials to ensure a trouble free operation. The Kevlar clutch plates are made for heavy duty operation and deliver a smooth power transfer to the rear wheel. The adjustable coil springs allow you to tailor your clutch lever pressure and clutch operation as needed. These kits also boast very low maintenance, "Set it and Forget it." They are great upgrade kits.

York Posilock Clutch Kit fits 1998-2006 Big Twin featuring positive engaging ball ramp activation.
VT No. 18-0780

Barnett Scorpion Clutch Kit features over twice as much friction surface area compared to stock clutch. All Scorpion Clutches provide a positive engagement and release. Scorpion clutches incorporate 6 heavy duty coil springs. In addition, an extra spring set with a different spring rate is

included which allows the clutch to be tuned for street or race application depending on usage. Tunability is easy without removal of the primary cover. Barnett Friction Plates are compatible with any primary oil. Each kit is designed to be used with stock type clutch basket.
