Starter Drive Gear Set includes 9T pinion gear and 66T or 84T ring gear with mounting hardware. This ratio allows more RPM for easier starting and the heavier teeth configuration is less susceptible to wear by converting the 102 tooth ring gear to 66 or 84T.

2.4 KW Starter Kit includes chrome starter and full jack shaft kit to fit 1989-06 models except 2006-up Dynaglide.
